

# Core Activity Sheet 1.2

## Tasks - Refugees

1. In pairs or threes, **read** through the information on Core Activity Sheet 1.1. Take it in turns to read and **underline** the words you don't know with a coloured pencil.
2. If anyone else knows the words you have underlined, **write** the meaning in the space next to it. If no one knows, **look it up** in a dictionary and then write it in.
3. Now **read** through each paragraph again. Using a different colour pencil, **underline** the main point. Try to agree with your partner or partners what the most important point is.
4. For each paragraph **write** a subheading which shows what that paragraph is about. Try to think of a short title which introduces the main point.
5. Now think up a good title for the whole article and **write** it at the top of the sheet.
6. Finally, **write** a 4-sentence summary of the whole page. Make it as short as you can. Include only the main points and cut out the examples and details.
