### Amateur Sporting Association of Botanica (ASAB)

We exist to promote amateur sport at all levels in Botanica.

Our job is partly to protect the interests of all participants in amateur sport in our country.

We have promoted the cause of equal opportunities in sport in various ways, including the first men's and women's football leagues in the world to have equal status.

We want to encourage foreign investment in Botanica, especially for the development of sport.

ASAB passionately wants to develop better facilities for sport in Botanica and is exploring every way of doing this.

We believe that Botanica has some extremely talented athletes who could do very well in an international competition if they had enough good training and better facilities.
