

# Activity Sheet 4.2

This Sheet should be cut in half so that representatives of each country only see their own points.

## Somneedia's points for the meeting with Jeanpool:

- ▶ My people will work for less than West Loanians, as long as they have jobs.
- ▶ We are hoping, that in return for opening the factory, Jeanpool will invest money in improving the road system that leads to the airport.
- ▶ We have very low taxes here, which will be beneficial to Jeanpool.
- ▶ Industrial waste has already polluted our main river and killed our fish. We have put into place some strict environmental regulations, which all companies must follow.
- ▶ We have a flat area of land, which Jeanpool can use. We will move all the small farmers that live there, with military force, if necessary.
- ▶ Trade unions are banned in Somneedia.

## West Loania's points for the meeting with Jeanpool:

- ▶ We are going to fund all the sewers, roads and utilities, which will enable Jeanpool to build the factory with minimum inconvenience and expense to them.
- ▶ We have a strong union movement in this country, which fights for workers' rights, and particularly those of women.
- ▶ We have no anti-pollution laws to hamper the production rates of industries.
- ▶ We will allow Jeanpool to send its profits back to its own country without interference.
- ▶ We have few skilled workers here. We would like Jeanpool to offer training to our people, instead of bringing in their own people from abroad.
- ▶ We would like to offer Jeanpool a large interest free loan.
