

How developed is the UK?

- 1 Complete the four graphs below using information from the table.
For each graph, colour the UK *red*, Spain *yellow*, Italy *blue*, Brazil *green* and Kenya *brown*.

	UK	Italy	Spain	Brazil	Kenya
Wealth (GNP US\$ per person)	18,913	19,121	14,111	4,510	270
Primary jobs (% of total)	2	9	11	25	80
Trade (US\$ per person)	6,697	6,449	3,704	343	110
Education spending (% of GNP)	5	4	6	4	7

- 2 a) Complete the table below to show the rank order of the five countries for each measure of development. The most developed country will score 1 and the least developed will score 5.
b) Add the scores together for each country, and complete the Total column.

	Wealth (highest first)	Primary jobs (lowest first)	Trade (highest first)	Education (highest first)	Total
UK					
Italy					
Spain					
Brazil					
Kenya					

- 3 Write out the countries in a 'League table of development', with the most developed at the top. The country with the lowest total score will be the most developed.
4 Use the information on this page and in the pupils' book, to answer the question, 'How developed is the UK?'
